### **DETAILED ACTION**

Applicants amendment of the specification, and amendment of claim 51, 59 and 60, Paper No. 25, 4/25/2003 is acknowledged. Applicants' arguments filed on 4/25/2003, Paper No. 25, have been fully considered and are deemed to be persuasive to overcome some of the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

Claims 51-53, 55, 59 and 60 are currently pending and present for examination.

### ***Specification***

The disclosure is objected to because of the following informalities:

The specification in Figure 10 recites and compares a number of amino acid sequences. Applicants amendment of the figure description of Figure 10 to include sequence identifiers (i.e. SEQ ID NOs:) is acknowledged. As applicants stated, this amendment necessitates a new sequence listing as SEQ ID NO: 76 and 77, references to which were added in applicants amendment do not exist in the current sequence listing which contains 75 sequences. Thus the description of figure 10 is objected to for reference to SEQ ID NO: 76 and SEQ ID NO: 77, for which there is no sequence in the sequence listing.

Appropriate correction is required.

### ***Allowable Subject Matter***

Claims 51-53, 55, 59 and 60 allowed.
